Role of the DGS

While every department or program has its own traditions, the Director of Graduate Studies plays a pivotal role in each. As the DGS, you work with other members of your program to act as:

- the steward of the graduate curriculum, with responsibility for its coherence, integrity, and smooth functioning;
- an advocate for graduate student interests;
- a liaison between fellow faculty members and the graduate students in your program;
- a liaison between your program and GSAS.

Frequently, the DGS also serves as chair of a program’s graduate admissions.

In this handbook, you’ll find out more about the central role of the DGS in the life of the Faculty of Arts and Science. More information can be found by reaching out to your colleagues in GSAS.

About this handbook:

This handbook augments existing information available through a wide range of channels: from the GSAS website, through our Administrative Update e-bulletins, and notices from across the University.

It most directly supplements information found in the more formal GSAS Policies and Procedures Manual online at: http://gsas.nyu.edu/about-gsas/policies-and-procedures/policies-and-procedures-manual-and-forms.html. Be sure to read that separate manual as it is the final governing document for all students in your program.

For more time-sensitive information on admissions, fellowship deadlines, financial aid, follow the emails sent out to all DGS’s on a regular basis.
Before You Begin

• Check in with your predecessor to learn how the position in your program has developed over time. Collect as many documents as you can – including useful templates for routine email communications – so that you can best act on the institutional memory in place. Ask your predecessor to prepare a written, program-specific calendar to help guide you.

• Familiarize yourself with your department’s Graduate Student Handbook. Ensure that your predecessor updates it before their term comes to a close. Ask the Office of Academic and Student Affairs in GSAS to review any major changes that may occur.

• Meet the colleagues and administrative staff with whom you’ll be most regularly interacting. If you are in a department, this will often include your Department Chair, Associate Chair, Departmental Administrator, and/or Graduate Secretary. Learn how they have understood the role of the DGS in the past and where they hope for you to take it.

• Along with this DGS handbook, review all the resources online through the GSAS website at http://gsas.nyu.edu/. A select list of useful program links is included at the back of this handbook.

• Ask your program administrator to sign you up for online access to transcripts through the “Advisor Center” on Albert. This will enable you to check on a student’s progress before meetings, or when consulting colleagues on student issues.

• As the DGS is often the main conduit for information to students on programming, upcoming fellowship competitions, and more, ask your administrator to provide you with email lists that enable you to communicate directly with students by year, program wing, and as a complete cohort.

• Log the year’s schedule of DGS Meetings in your calendar, available below and online at http://gsas.nyu.edu/about-gsas/directors-of-graduate-studies---program-directors.html. These mandatory meetings are designed to keep you in touch with best practices in graduate programming at the university.

• Get to know the Graduate Enrollment Services liaison assigned to your programs. This person will assist you with issues involving admissions, enrollment, and financial aid.

Submission dates for Committee on Graduate Curriculum and Financial Aid
At the Start of Each Semester

• Review the transcripts for all students in your program. Look for problem areas such as low credit counts, incompletes, or the absence of required courses, and take whatever official action is needed, including placing students on probation. Check the progress of students already on probation.

• Review course offerings for the upcoming semester and beyond. If a topics course has been or will be offered more than once, it must go through review by the Graduate Curriculum Committee to be approved and assigned its own course number. A listing of GCC Dates and Deadlines can be found online at: http://gsas.nyu.edu/about-gsas/standing-committees/committee-on-graduate-curriculum-and-financial-aid-dates-and-dea.html.

• If you plan on meeting with students (for mock Fulbright interviews, sample job talks, or program reviews) or with faculty (for fellowship panels, admissions committees, or prospective student visits), line up the dates early and share them widely. Be sure that graduate student events are part of the public calendar on your program’s website.

• Share with your students a copy of the GSAS Student Calendar created each year by the Office of Academic and Student Affairs (OASA) and Graduate Enrollment Services (GES), online at: http://gsas.nyu.edu/academics/academic-calendar.html.

• Remind your students of the GSAS policy on academic integrity https://gsas.nyu.edu/about-gsas/policies-and-procedures/gsas-statement-on-academic-integrity.html.

• If your program requires that students demonstrate foreign language proficiency, share the upcoming November, March, and August dates when OASA will administer the Foreign Language Proficiency Exams. See: http://gsas.nyu.edu/about-gsas/policies-and-procedures/flpe.html.

• Review and make updates to your admissions materials and website information.
August and September

• Remind students of key external funding fellowships such as the DOD, Ford, Javits, and NSF Graduate Research Fellowships. Even when NYU’s GSAS enjoys full funding for our doctoral students, the fellowships provide ample enhancements for summer support and multi-year stipends. Deadlines are early. Some information is online at: http://gsas.nyu.edu/financial-support.html.

For other research fellowship programs, such as Fulbright and Fulbright-Hays, NYU’s Wasserman Center organizes fellowship-specific seminars on how to prepare an application. More information is online at: http://gsas.nyu.edu/financial-support/fellowships.html.

• If your program maintains its own database of fellowships for graduate students, now is the time to update. If not, consider building one. Each program has its own means of guiding students to funding, from program-specific databases to password-protected libraries of successful grant applications from students in your program. GSAS offers a list of those fellowship programs it administers as well as many others at: http://gsas.nyu.edu/financial-support/fellowships.html.

• The NY State Education Department requires that all first-time teaching assistants receive at least one teacher training and orientation session at both the program and University level. Attendance is not mandatory at the GSAS New Teacher Training but is highly encouraged and students are reimbursed for their participation. DGS’s normally lead required training and orientation sessions in their program.

• If numbers permit, meet individually with all incoming students. Extend a welcome, share a copy of your student handbook, sketch a typical pathway through the program for them, invite questions or concerns, and be sure that they are fully informed of upcoming events and obligations.

• As DGS, you play an active role in all of your program’s orientation offerings for incoming students.

• Note that the GSAS fall fellowship competition (for dissertation research and writing) plus those at the Abu Dhabi, and Shanghai campuses typically require all materials to be submitted in early October. As departments may be limited in the number of candidates they can put forward, set your own internal deadlines and establish a fellowships committee for earlier vetting.

• Set up and announce a time for meeting with each of your student cohorts at least once in the year to invite feedback on the graduate program and to advise them collectively on time-to-degree. Such sessions are invaluable for learning early about student questions and concerns.
October

- For doctoral programs, work with your committee to rank and nominate GSAS Fall Fellowship candidates.

- Make sure spring graduate courses are posted on your program site.

November

- During quieter programming months, work with your administrative staff to annually contact your program alumni and post their career placement updates on your program pages.

December

- [Fall Admissions] Review of files begins for many programs.

January

- Note that the GSAS spring fellowship and graduation prize competition (including support for summer research, the prize for outstanding dissertation by division, and graduate student teaching awards) typically requires all materials to be submitted in early February. As departments are limited in the number of candidates they can put forward, set your own internal deadlines and establish a fellowships committee for earlier vetting.

- [Fall Admissions] Graduate Enrollment Services begins accepting nominations for diversity award programs.

February

- [Fall Admissions] Organize your March open house events for prospective students.

March

- Organize your teaching assignments for the next academic year.

April

- [Fall Admissions] Send welcome letters and information packets to incoming students.

- Post fall graduate courses on your program site.
May

- Advertise and celebrate your graduate program’s honors and awards by posting all student honors on your site.

- Follow these successes by updating the password-protected archive of successful student grant proposals for key fellowships in your area.
